### California Department of Education School Accountability Report Card Reported Using Data from the 2015-16 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians, and community members should contact the school principal or the district office.

### DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

#### About Our School

Welcome to Alternatives in Action High School (formerly called Bay Area School of Enterprise). Our school serves approximately 180 students and provides an environment in which youth take ownership of their own learning and partner with caring adults to change their lives as they change the community around them. Using restorative processes and a growth mindset, we are committed to providing a safe, positive learning community. We value meaningful relationships among our staff, students and families, and believe that all young people are inherently wise and resourceful. Alternatives in Action High School has over ten years of demonstrated success graduating students and preparing them for impactful lives in college, career, and community. Since 2001, we have engaged a diverse student body (97% of whom are students of color with diverse economic and English language learner backgrounds) in the creation of over 50 social action projects, hosted over 150 visitors wanting to learn more about the school's innovative approach, and had our graduates accepted to colleges including UCLA, UC Davis, UC Santa Cruz, San Diego State University, Sacramento State University, San Francisco State University, and Mills College. The school is fully accredited by the Western Association of Schools and Colleges. At the start of the 2014-2015 school year, the high school relocated to East Oakland's Seminary Neighborhood.

Sincerely,

Phung Lai and Logan Manning

Co-Directors

### School Description and Mission Statement (School Year 2016-17)

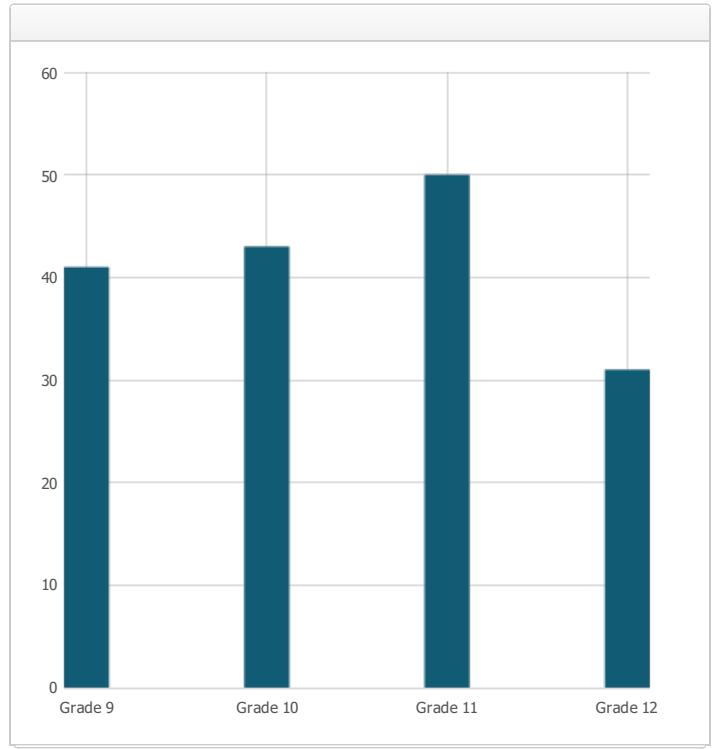

Alternatives in Action High School (formerly known as Bay Area School of Enterprise) serves youth from the Bay Area who are motivated to transform their lives and their communities. Alternatives in Action High School provides an environment in which youth take ownership of their own learning and partner with caring adults to change their lives as they change the community around them. The school serves a diverse population of youth, the majority of whom have been unsuccessful in one or more core academic subjects as measured by standardized tests or credits towards graduation. Our approach is radically different. Rather than the continuation high school approach, which typically emphasizes rapid credit recovery in order to meet the minimum state established graduation requirements, Alternatives in Action High School strives to prepare youth for college, career, and community.

Alternatives in Action High School is non-sectarian in its programs, admissions policies, employment practices, and all other operations. The school does not charge tuition, and does not discriminate on the basis of race, ethnicity, national origin, gender, or disability.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students

Subject	Percent of Students Meeting or Exceeding the State Standards					
	School		District		State	
	2014-15	2015-16	2014-15	2015-16	2014-15	2015-16

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

**Career Technical Education Programs (School Year 2015-16)**

Alternatives in Action High School has developed CTE course pathways in the following: Arts, Media & Entertainment: Production & Managerial Pathway; Education, Child Development & Human Services: Child Development Pathway and Education Pathway. We offered courses in these pathways during the 2015-2016 school year with 100% of 9th grade students enrolled in Intro Pathway courses. Additionally, two of our capstone courses for each Pathway have been approved by the Peralta Community Colleges for articulation in the Fall of 2016 with the final capstone class expected to become articulated soon. AIAHS is a member of the Project Pathways Collaborative and is receiving funding through the Career Pathways Trust to further develop the Career Technical Education Program.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

#### Opportunities for Parental Involvement (School Year 2016-17)

Alternatives in Action High School seeks to involve parents in the school community and their child's education. Opportunities for involvement include parent education workshops, participation in the Parent Advisory Committee, parent representation to the Board of Directors, participation in ELAC meetings, and participation in DELAC meetings. AIAHS informs parents of students' progress through at minimum monthly phone calls, PowerSchool (an online grade reporting system, attendance, and student information system), progress reports, and individual family conferences. Additionally, there are events that take place that also engage parents with their child's learning, such as: required presentation of portfolios once a semester, Back to School night, presentation of learning in the Spring, Orientation Night, and a Family Thanksgiving Potluck.

## Professional Development

---

Alternatives in Action High School uses data driven instruction. Our professional development plan is created based on a review of key data and school-wide achievement goals identified through our charter and local control action plan. Key data includes CELDT scores, Northwest Evaluation-Measures of Academic Performance, writing assessments, CASPP results, results from Scholastic Reading Inventory, results from Scholastic Math Inventory, and the CSU Math Placement Exam. Priorities have been identified as supporting staff to effectively work with English Language Learners (ELL) and develop literacy skills across school curriculum. Through a partnership with the REACH Institute for School Leadership, staff have implemented multi-tiered professional development structures for staff including: intensive observation cycles, cycles of inquiry, and individual learning plans based on self and coach assessments using the California Standards for the Teaching Profession. Staff have two weeks dedicated time in August for professional development, including training, as well as a mid-year retreat, weekly staff meetings, and other training opportunities.
